outreach
AUSTRALASIA

Your donation will make a world of difference

Orthopaedic Outreach supports volunteer surgeons, anaesthetists, nurses and physiotherapists who provide surgical and teaching services throughout South East Asia and the Pacific Islands.

The funds we receive through donations are used to cover equipment, surgical supplies and the most basic expenses of the medical personnel who voluntarily offer their time and skills.

Please support our work to make a world of difference. Find out more about Orthopaedic Outreach at www.orthoreach.org.au
